The Department of MBA, Sree Vidyanikethan Institute of Management (SVIM) has organized a National Webinar titled "**Stock Investment Tool Kit- Equity Research from investor's point of view**" on 27th August 2020 from 10.00 am to 12.15 pm.

The objective of this webinar was to provide basic procedure of analyzing an equity stock in order to take investment decisions. Every investor who wants to beat the market must master the skill of stock valuation. Essentially, stock valuation is a method of determining the intrinsic value (or theoretical value) of a stock. The importance of valuing stocks evolves from the fact that the intrinsic value of a stock is not attached to its current price. By knowing a stock's intrinsic value, an investor may determine whether the stock is over- or under-valued at its current market price.

Prof.N.Gurunatha Naidu, Director, SVIM in his opening remarks has highlighted the importance of savings and investments. He has also discussed the Warren buffet's views on investments and advised the participants to be wise enough while making the investments in various assets.

A.J.Vikram, a leading Chartered Accountant in Tirupati has enlightened the participants on how to do research of a company equity share. He has also explained a very useful tool kit which includes business analysis, financial analysis and market data analysis for picking a right stock for investment. After attending this webinar, many participants were expressed their gratitude for receiving all the insights of equity research. A good number of relevant questions were also addressed by the speaker.

Mr.B.N.Lalith Chandra, Assistant Professor and Dr.B.Ujwala, Assistant Professor, Department of MBA played a key role in introducing the speaker and connecting him to the audience without any technical problems. The session was conducted for more than two hours.

National Webinar came to an end by collecting the feedback from the participants followed by Vote of thanks. Nearly 240 participants have attended the webinar from different parts of the country.

Dr.J.MURTHY, webinar coordinator and his team have successfully conducted this National level event.
